Summary

Highly adaptable Full Stack Engineer with proficiency in English, German, Romanian and Hungarian, driven by a relentless thirst for new challenges.

Experience

Full Stack Developer

WebGurus

Feb 2023 - Jun 2024 (1 year 5 months)

Delivered scalable, multilayered front-end UIs seamlessly integrated with back-end services on multiple full stack projects.

Implemented real-time collaborative functionality using Pusher and optimized various engineering aspects of a large-scale project.

Developed and maintained high-quality code by writing comprehensive unit and end-to-end (E2E) tests to ensure robust product performance and reliability.

Additionally, developed small mobile application incorporating push notifications using Firebase.

Full Stack Developer

Freelance

Sep 2022 - Feb 2023 (6 months)

Developed a modern e-commerce platform featuring a custom admin panel and integration for their existing ERP system, designed to enhance the B2B experience for the Amsterdam-based fashion brand, Bickley + Mitchell.

Education

Babes-Bolyai University

Bachelor's degree, Computer Science

Oct 2020 - Jul 2024

Bachelor thesis about a Map Application for hikers with Real time tracking capabilities.

Babes-Bolyai University
